

Concerned Women for America of Missouri

On November 12, Hollywood will release a movie intended to convince the public that sex researcher Alfred Kinsey was an American hero when, in fact, his “research” was fraudulent and has without question been a major contributor to the rapid moral decline of America. Researcher Dr. Judith Reisman tried to stop the production of this movie, but to no avail. Now, the American public will be fed more lies concerning Kinsey and the infamous Kinsey Institute (part of Indiana University).

CWA of Missouri has spent the last seven years exposing the Kinsey lie to Missouri citizens and state legislators. Our **Restoring Social Virtue and Purity (RSVP) to America** presentation has been seen by thousands. We have been working to restore those laws that once protected women, children and the traditional family. There’s still a long way to go, but we have seen progress in this monumental task. With God, all things are possible!

CWA has developed a web site just in time to help combat the false information this new movie will bring. You can go to www.cwfa.org and click on **The Truth About Kinsey**. Here you find information to share with your friends.

Dr. Judith Reisman spent over 20 years of her life researching Alfred Kinsey and the Kinsey Institute. Her book ***Kinsey: Crimes and Consequences*** is a must read. Chuck Donovan, former head of Family Research Council, stated:

America has undergone a sexual revolution from which it has yet to recover. But if it is to recover from that revolution and restore the moorings we have lost—the protection of children and the reservation of sexuality to marriage—books like Judith Reisman’s *Kinsey: Crimes and Consequences* must reach the widest possible audience.

CWA of Missouri is making available to you Dr. Reisman’s book, along with two videos. The first video, “**The Kinsey Reports**,” was produced by the 700 Club and features Dr. Judith Reisman, Ron & Eunice Ray (RSVP America), Leslie Unruh (National Abstinence Clearing House) and many others who are knowledgeable on this subject. We also have the video “**Kinsey’s Secret History**,” which was produced by Yorkshire Television. No television network in America would air this video because it was so revealing of the Kinsey lie. When it was shown in England, the response was, “Is Kinsey in jail? Have they shut down the Kinsey Institute?” **Unfortunately, Kinsey was not convicted of any crimes and the Institute is still in existence today, spewing out lies that harm our children!!**

If you make a tax-deductible contribution of \$50 or more to CWA of Missouri, we will send you this book and two videos. You may call us with your credit card number, or mail a check made out to CWA of Missouri to our state office.

Remember, we only have the donations of our friends and members to keep us going here at CWA of Missouri. All contributions encourage us and are greatly appreciated. Write or call today.

God bless you as you work to help restore righteousness in our state and nation.
