

Homosexual Agenda Impact Survey

American standards of sexual morality have eroded to the point that almost nothing is off-limits in our schools except prayer and Bible reading. Sex education that promotes homosexual behavior as an “alternative and normal lifestyle” is now the norm.

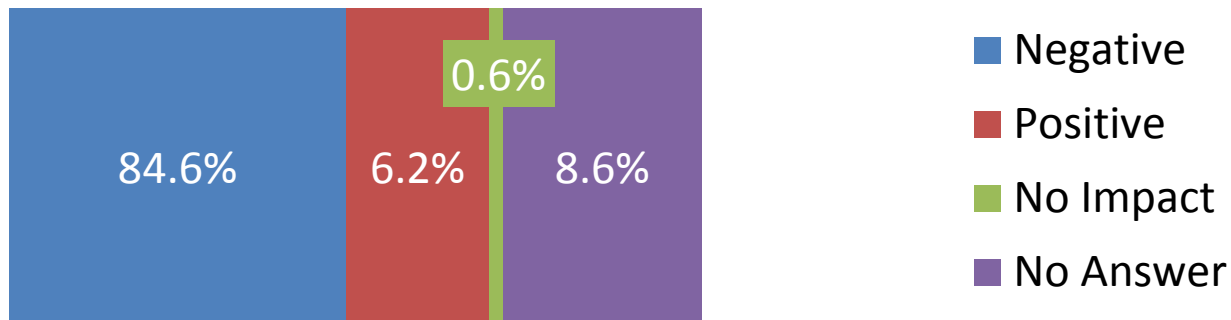

Concerned Women for America (CWA) contends that there are life-long, real-life consequences to our young people are exposed to this kind of homosexual propaganda. They are the generation who will lead us into the future. What they are being taught matters. *Earlier in 2012, CWA asked our members their opinion of the activities to normalize homosexuality which are taking place in our public school classrooms.* We then asked them their opinion of the impact those activities are having on our children. The results follow.

I. CWA has uncovered proof that children in grades as early as kindergarten are being taught that cross-dressing is an acceptable practice and may be encouraged.

Do you support this practice?

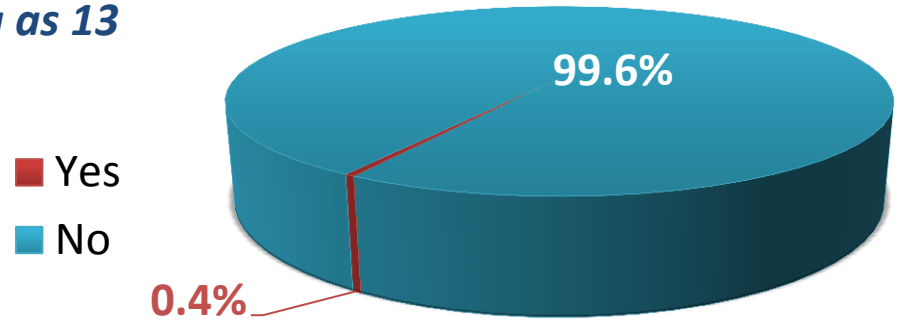

What kind of impact do you believe this would have on young children?

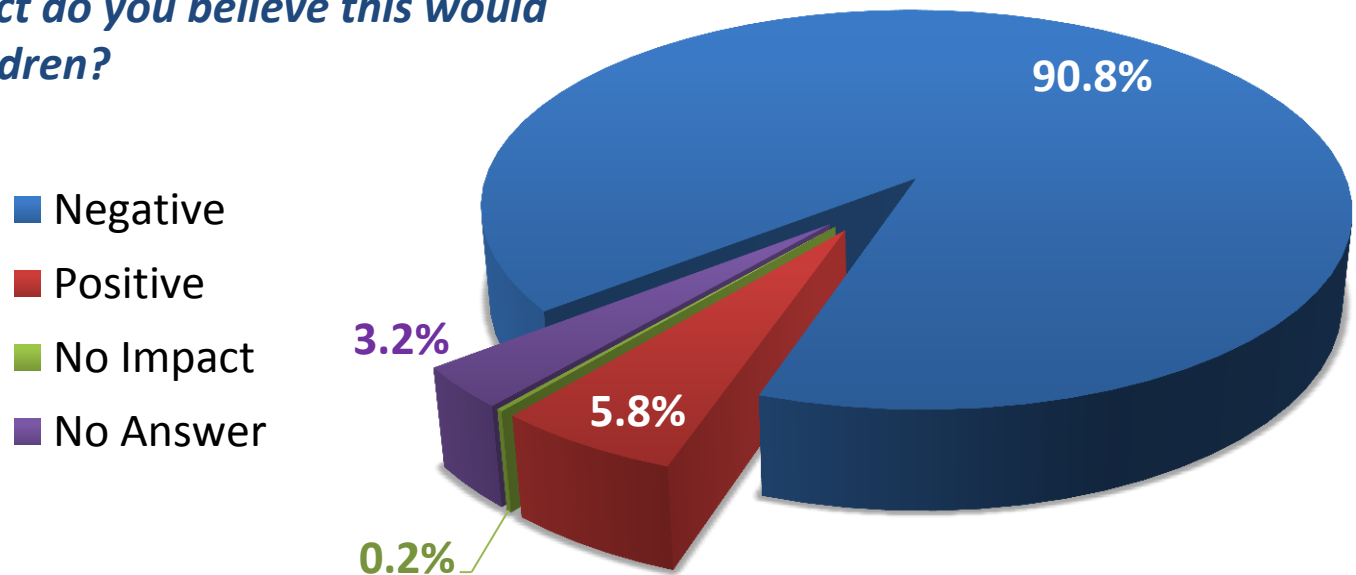

II. Homosexual teachers and activists are conducting programs in public schools that include explicit and detailed instructions on and discussions of various homosexual practices including oral and anal sex.

Do you believe school children as young as 13 or 14 should be exposed to this?

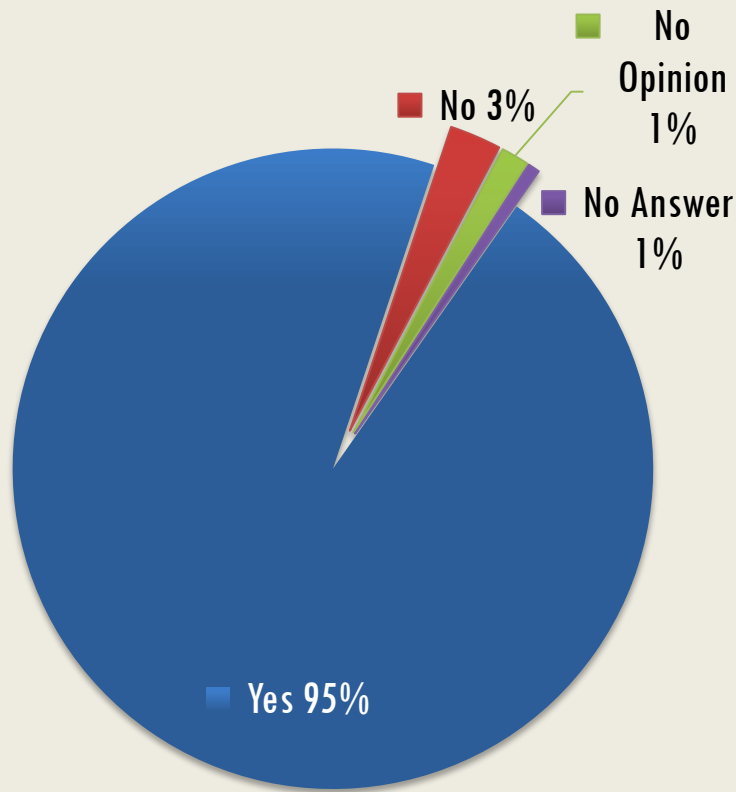

What kind of impact do you believe this would have on young children?

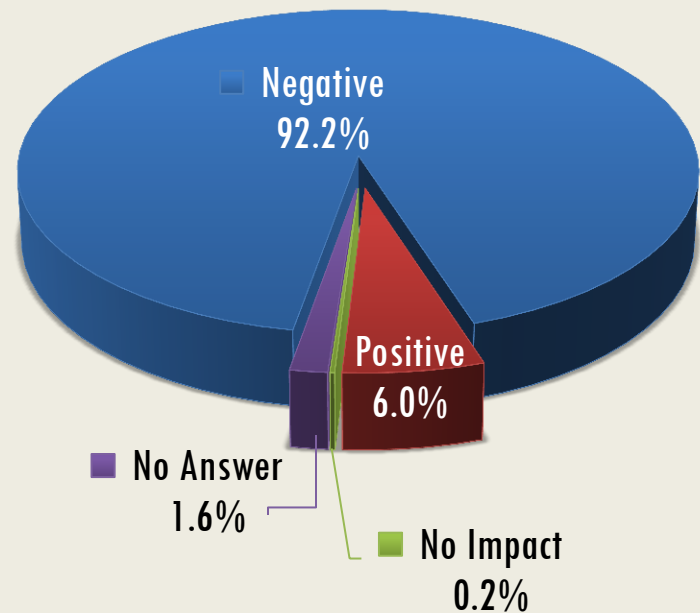

III. There are growing reports of increasing homosexual experimentation among teens.

Do you believe this is related to the presentation of favorable gay instruction material in the classroom?

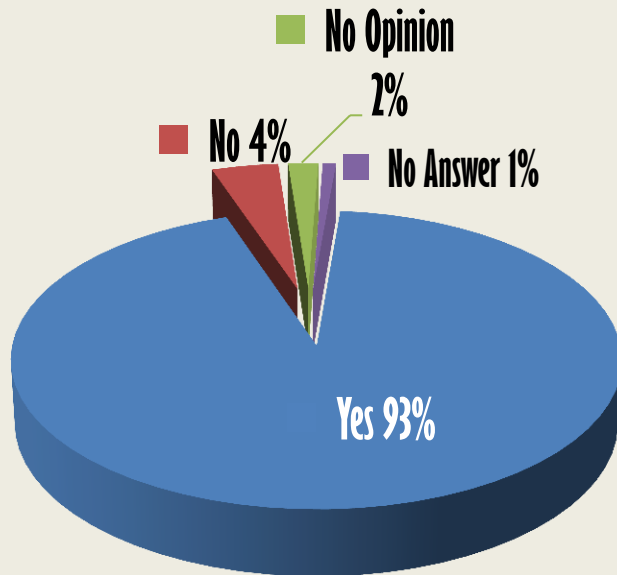

What kind of impact does this kind of early sexual experimentation have?

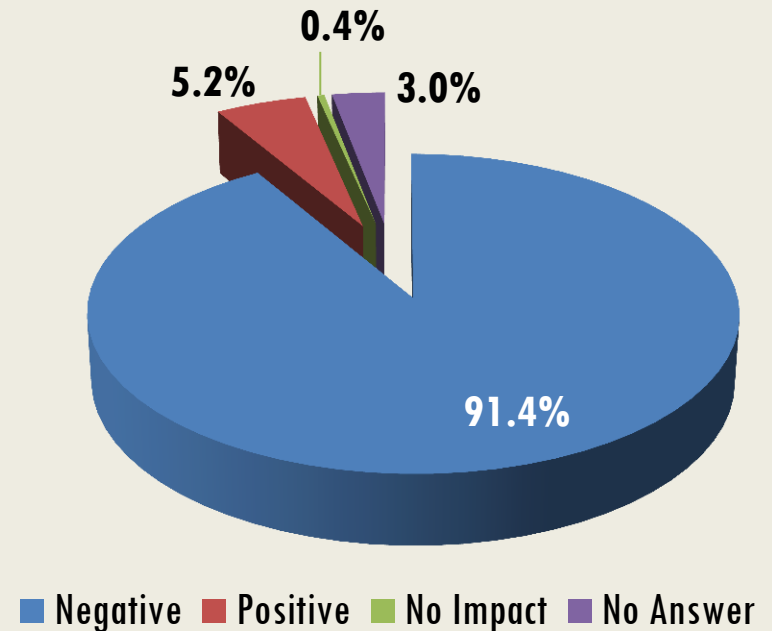

IV. The overriding interest of the radical homosexual agenda is to change the moral character of our young people and the moral landscape of our nation through our schools.

Do you think this is possible?

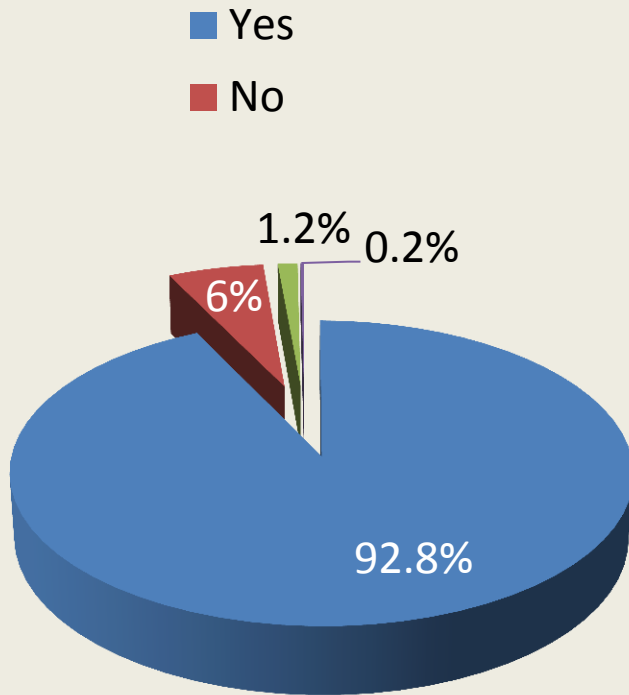

What impact would this have on our nation and the next generation leading it?

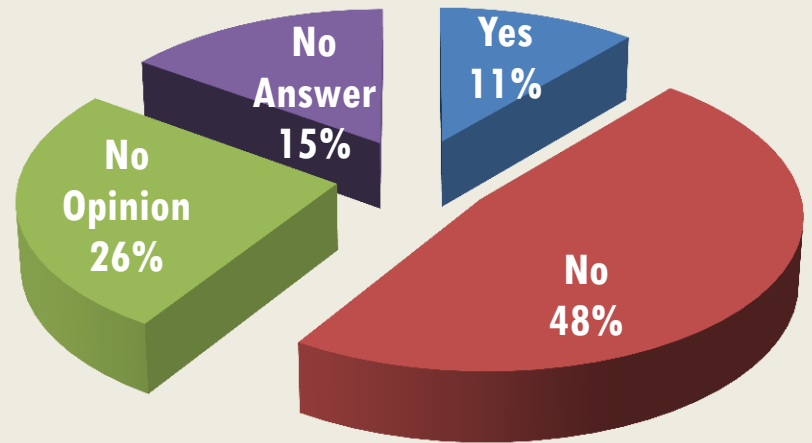

V. CWA believes that what is being taught in some classrooms is a blatant push to unashamedly promote and encourage the homosexual lifestyle, and ultimately force same-sex “marriage” on the American public.

Do you agree?

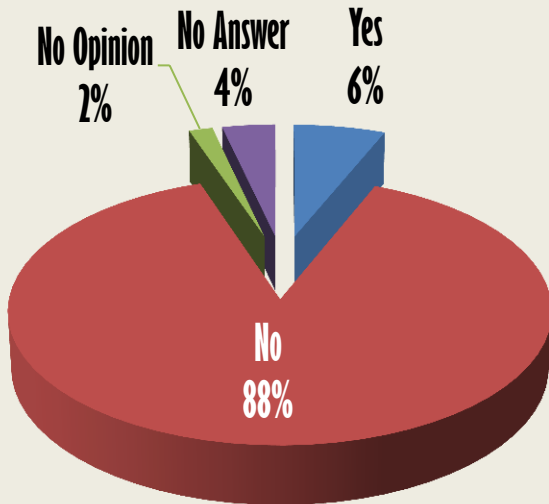

In your opinion, will instilling positive views of homosexuality in schools finally result in America accepting same-sex marriages?

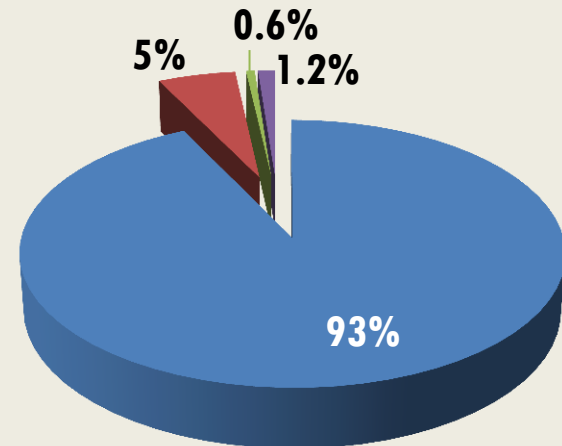

VI. The book “Harmful to Minors: The Perils of Protecting Children from Sex,” published by the University of Minnesota advocates sexual activities with young children, giving cover to pedophiles and other molesters.

Do you support their theories?

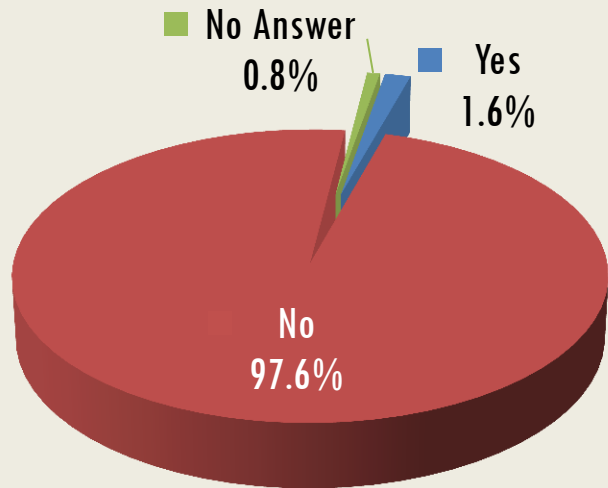

What impact would sexual activity between minors and adults have on our children?

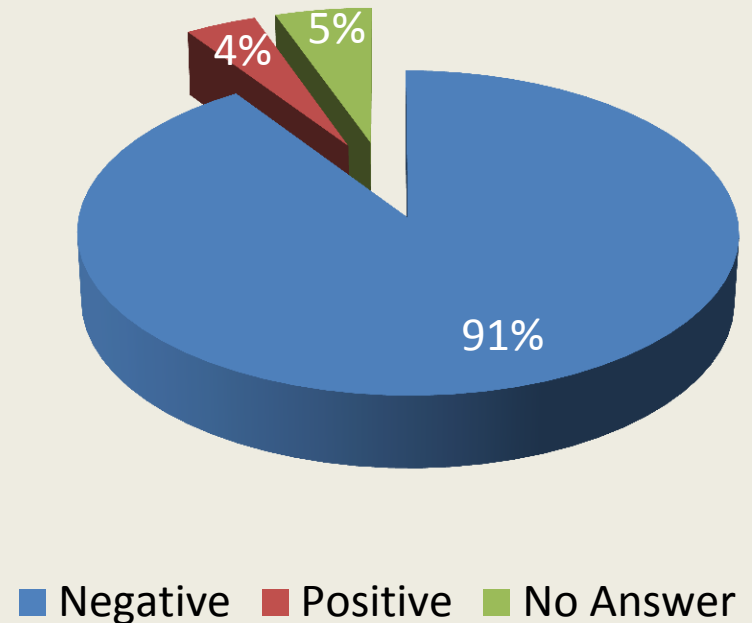

- Negative
- Positive
- No Impact
- No Answer

VII. In some school districts children are punished academically, silenced in the classroom or labeled “intolerant” by teachers and administrators if they do not celebrate homosexual “marriage” as the same as real marriage.

Do you agree with this teaching?

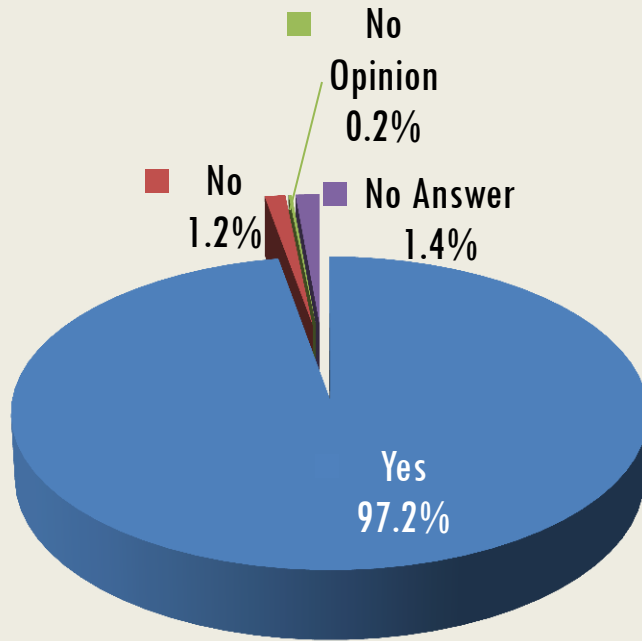

What impact on traditional marriage do you believe this kind of classroom instruction will have in the future?

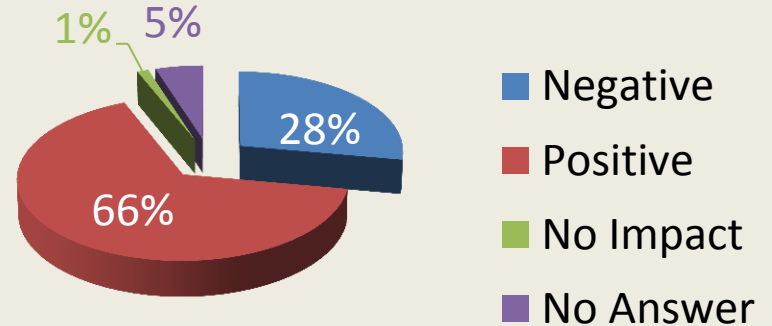

VIII. In some school districts, parents have the right to be informed on the subjects their children will be taught and further have the right to protect their children from homosexual and other anti-traditional family propaganda.

Would you support laws requiring area school districts to obtain a parent's permission before their child is exposed to information of a homosexual nature?

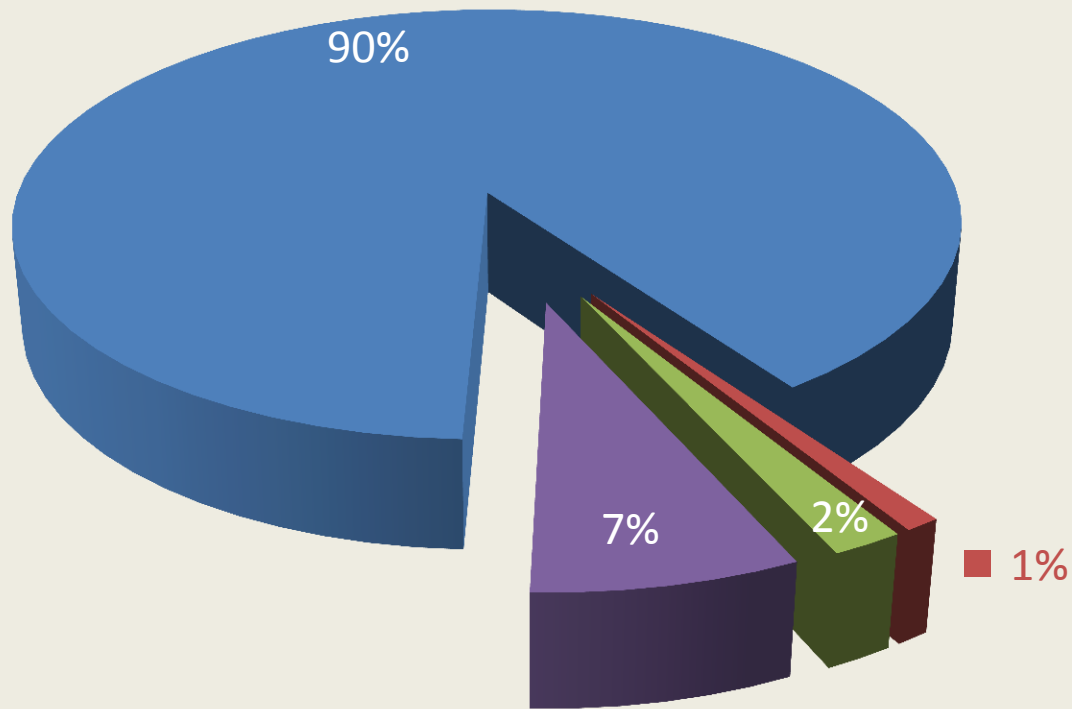

What impact on traditional marriage do you believe this kind of restriction on homosexual teaching will have in the future?

IX. Are you willing to take a moral stand against pro-homosexual classroom curriculum by taking grass roots action against the organizations that propose it?

■ Yes ■ No ■ No Opinion ■ No Answer

X. Will you help Concerned Women for America as we stand strong for Biblical principles and against the radical homosexual agenda in our schools?
