

### Obama“Care” Quashes Religious Liberty

- ◆ The Affordable Care Act (ObamaCare) violates your right to religious liberty.
- ◆ It forces Americans to buy health insurance plans that include contraception and abortion coverage.
- ◆ It also forces all employer health plans to cover abortion-inducing drugs, contraceptives and sterilizations, regardless of anyone’s moral or religious objections.
- ◆ Numerous groups, many of them Christian, have been fighting ObamaCare’s religious freedom violations, since its inception.
- ◆ These cases have NOT been heard at the Supreme Court yet. The case that went to the Supreme Court dealt only with the individual mandate to buy health insurance, not with the religious liberty aspect.
- ◆ The so-called religious exemption they have provided covers only “churches and other houses of worship.”
- ◆ Government decides which entity is religious enough to deserve a religious exemption.
- ◆ According to government, Christian groups like Concerned Women for America (CWA), religious hospitals or orphanages, charities or religious orders are NOT religious enough.
- ◆ For example, the Little Sisters of the Poor who, because of their deep faith, give their whole lives, literally, to serving the elderly poor, are NOT religious enough to receive an exemption under ObamaCare.

- ◆ For example, the Little Sisters of the Poor who, because of their deep faith, give their whole lives, literally, to serving the elderly poor, are NOT religious enough to receive an exemption under ObamaCare.

- ◆ There is no reason to impose this.
- ◆ The Administration is simply pandering to a particular special interest group that hails “reproductive rights” above all other rights and will go to any extent, including the trampling of religious liberty, to make sure they get their way.
- ◆ It’s not really about “access” as they claim. It is about forcing someone else to violate their conscience to pay for another’s preference.
- ◆ Simply put, ObamaCare places reproductive “rights” above religious liberty, trampling the Constitution and freedom.
- ◆ The Administration is aware of the clash and has chosen to stand against religious liberty.

Live Out the Truth . . .

### Join our efforts to defeat the HHS mandate

- ❑ **Pray** for religious freedom in America and for every decision maker who will be evaluating these violations in the weeks and months to come (from judges to regulators to administrators to lawmakers).
- ❑ **Equip** yourself with the latest information and resources available at ConcernedWomen.org.
- ❑ **Share** what you learn with those around you. This is not a Republican or Democrat issue; it is a constitutional, religious liberty issue about which we all should be concerned. Print the materials you will find at our website and make sure everyone has the information.
- ❑ **Vote** for people who respect and, indeed, cherish religious liberty every time you have the opportunity. This is crucial.
