

Making Common Core *Uncommon* in Missouri

The status of Common Core in Missouri

Saturday, April 16, 2016

9:30 a.m. - 11:00 a.m.
The Pillar Foundation
15820 Clayton Road
Ellisville, MO 63011

Where is Common Core now? Much has happened in our state legislature in the last few years for and against Common Core. Join us and find out where it is, where it still needs to be opposed and what part you can play in making Common Core *uncommon* in Missouri.

We are excited to have **Ann Gassel** as our speaker. She is one of the founders of Missouri Coalition Against Common Core and a member of Truth In American Education which fights common core on a national level. She worked on the passage of HB1490 which has started to return local control of education to the state and continues to lobby the legislature to pass laws limiting the personal sensitive data about our children that is collected by the state. As a plaintiff in the lawsuit challenging the state's participation in the multi-state testing consortia SBAC, she helped save the citizens of Missouri \$26 million when the court ruled the consortia unconstitutional and barred our state's membership payments.

Women, men, and teens are all encouraged and welcomed to attend.

For the month of April the "second Saturday" is going to be the third Saturday.
