

If You Are Pro-Life, Memorize These 10 Simple Facts

AN UNBORN CHILD IS HUMAN

1. **The Unborn is Human:** The child's size, level of development, environment, or degree of dependency can't change their fundamental being. Infants are also small, undeveloped, and just as dependent on their mothers.
2. **The Baby's Heartbeat:** The child's heart beats at 21 days. It is audible at 8-10 weeks gestation.
3. **Fetal Development:** Almost 54% of abortions occur from 7-12 weeks when a baby already has a developing nose, mouth, ears, intestines, brain waves, touch response, hiccups, and more.

ABORTION FACTS AND RISKS

4. **Abortions Per Year:** About 700,000 per year.¹
5. **Racism and Abortion:** The largest killer of African-Americans is abortion.² African Americans are only 12% of the U.S. population but disproportionately receive about 28% of U.S. abortions.³
6. **Abortion's Physical Health Risks:** Abortion increases breast cancer risks⁴ and other health risks.⁵ Also, at least "427 women have died as a result of legal abortion."⁶
7. **Abortion's Psychological Health Risks:** Many women experience grief and regret over abortion and need to seek healing.⁷ Evidence suggests that it increases women's suicide rate as well as instances of depression and substance abuse.⁸

PLANNED PARENTHOOD FACTS

8. **Planned Parenthood Abortions Each Year:** Planned Parenthood is the nation's largest abortion provider⁹ performing about 324,000¹⁰ (Almost 900 per day). The organization is riddled with scandal.¹¹
9. **Taxpayer Funding of Planned Parenthood:** \$553.7 million per year.¹²
10. **Ratio of Community Health Clinics to Planned Parenthood Clinics:** 20 to 1¹³
