

CWA of California Marriage Update

September 2, 2008

Prop 8's Success Depends on You!

The battle to restore and protect the definition of marriage in California is a winnable one. Success, however, depends on everyone's commitment to help the effort – starting now.

Please visit www.ProtectMarriage.com where you can find resources, donate and sign up to volunteer.

You Can Help Prop 8 This Weekend

On August 16 and 23 over 50,000 volunteers canvassed neighborhoods across the state – over one million homes in all!

It just takes a few hours of your Saturday to create a tremendous difference by visiting homes with another Prop 8 volunteer. Training is provided and the response has been very positive! People want to find out more about Prop 8.

You can help this weekend, by visiting www.protectmarriage.com, clicking "Volunteer" and filling out the online form. To help with canvassing (a great need right now!) please check the "Distribute Literature to my Friends and Neighbors" box. If you have any questions, please contact the campaign office at (916) 446-2956.

Start Registering Voters Now!

While the deadline is not until October 20, it is important to begin registering voters now. Ask your church leadership to support a voter registration drive by sharing the importance of voting and passing out registration forms and permanent vote by mail designation forms during the service or setting up voter registration tables. Individuals who are registered to vote by mail are highly likely to cast their ballots.

[Click here](#) for instructions on how to conduct a voter registration drive.

Order registration and permanent absentee forms through your county registrar of voters' office. [Click here to find contact information.](#)

Prayer Power

Take 8 for 8!

Will you commit to pray at least eight minutes daily for Prop 8? Ask God to bring forth the needed volunteers, energize churches not currently involved and provide the necessary finances. Ask Him to protect and encourage pastors as they share important messages about the marriage amendment and direct the involvement of their churches.
