Dear Senator Cornyn,

I am concerned about the announcement to lift the long-standing ban on women serving in direct combat. It is just further proof that this administration simply does not care about the issues about which the majority of women care. Once again, their interest on women issues is driven by special interest groups. The point of the military is to protect our country. Anything that distracts from that is detrimental.

Please do all you can as a United States senator to stop this decimation of our military.

Sincerely,
