

## **ICYMI: Thousands Join CWALAC at Austin, Texas, Pro-Life Rally with Gov. Mike Huckabee and the Duggar Family**

Thousands gathered in blue on the steps of the Texas State Capitol Monday night in a unified statement to the media and to the nation that Texas will stand for life. The pro-life rally was in support of HB 2 and SB 1, Texas's pro-life bills that would protect babies in utero from abortion after 20 weeks and protect women by placing reasonable regulations on Texas abortion clinics.

Concerned Women for America Legislative Action Committee (CWALAC) had the privilege of helping coordinate the rally of leaders and legislators that included Gov. Mike Huckabee, Jim Bob and Michelle Duggar, the Honorable Marilyn Musgrave, Texas Attorney General Greg Abbott, Lt. Governor David Dewhurst, and other pro-life leaders and members of the Texas House and Senate.

Here is how CWALAC's Communications Director, Alison Howard, described the event:

"As the sun set over the Texas Capitol, the sea of blue swayed with signs, and cheers commanded attention from the multiple media outlets stationed on the stairs. It was an incredible scene. Between speakers, the people chanted 'Pass the Bill', always followed by applause. The energy was high as Texas State Troopers lined the speaker area, and abortion supporters in orange lingered around the crowd. Many of the speakers reiterated their love for those who disagreed with them and sought to find common ground."

---

CWALAC President and CEO, Penny Nance, Describes the Night's Event:
