

Common Core "State" Standards

Join Concerned Women for America of Missouri
for a lively discussion on one of our core issues, education, and its effect on
our families, communities, state and nation.

- Loss of local control
- Loss of privacy
- Loss of parental rights
- Affects public, private and home schools
- Bulk of cost will fall on state

This national initiative is unconstitutional and is an affront to states' rights as outlined in the Tenth Amendment. States have sacrificed their sovereignty and have been reduced to mere administrative agents.

6:30 p.m.**

**Osage Community Center
1625 N. Kingshighway St.
Cape Girardeau, MO 63701**

Presenter: Stacy Shore

Stacy Shore is from a family of educators in Camden County. As a mom she observed troubling issues as her children attended the local public school. It turns out the problem was the Common Core "State" Standards. Stacy will share with us what she learned firsthand as well as through additional research.

*Women, men and teens
are all welcomed*

***Common Core is an issue that we cannot ignore for the sake of
our children and our Constitutional rights.***
