

CONCERNED WOMEN FOR AMERICA

CONCERNS AND GOALS

WE ARE CONCERNED ABOUT:

SANCTITY OF LIFE

1. The protection of innocent human life -- including protecting the unborn from abortion, fetal tissue experimentation, and embryonic research; and society from euthanasia, cloning, population control and human genetic engineering.

2. The physical, emotional and spiritual harm to women, men and their families resulting from abortion.

RELIGIOUS LIBERTY

3. The trend of government to diminish and disregard the God-given inalienable rights of individuals.

4. The erosion of religious liberty and the legal and cultural imposition of anti-Judeo-Christian philosophies upon our society.

FAMILY

5. The disrespect for family and for the unique contribution of fathers and mothers. The attempt to eliminate natural distinctions between men and women.

6. Sexual promiscuity, cohabitation and sexually transmitted diseases, including HIV/AIDS.

7. The alarming increase in violence in American households, including same-sex and opposite-sex partner assaults, spousal assaults, and child and elder abuse.

8. The growth of prostitution that feeds the sex trafficking industry worldwide - endangering the well-being and lives of thousands of girls, boys and women.

9. The fiscal responsibility of government and its impact on our nation.

10. The prevalence of drug and substance abuse in our country.

11. The detrimental effects of gambling on the family.

PORNOGRAPHY

12. The ever-increasing prevalence of pornography, sexually-oriented businesses, and prostitution, and the lack of enforcement of existing laws.

13. The morally deteriorating impact of the entertainment industry on our country and the increasing emphasis on violence and sexual exploitation.

WE ARE WORKING TO SEE:

SANCTITY OF LIFE

1. Laws passed to protect our society from practices and policies that endanger or debase innocent human life.

2. Public awareness of the harm of abortion to women, men and their families; and the promotion of pregnancy care centers and post-abortion counseling services.

RELIGIOUS LIBERTY

3. Our government strengthen and renew its commitment to respect and protect each individual's exercise of his God-given inalienable rights.

4. The protection and preservation of religious liberty as provided in the United States Constitution.

FAMILY

5. The family esteemed as the bedrock institution of society consisting of individuals related by blood, marriage (the legal union of one man and one woman), birth, or adoption. The respect for the distinctiveness of men and women.

6. Society value and respect marriage, encourage sexual abstinence before marriage and educate on the dangers of promiscuous sexuality; HIV/AIDS treated as a public health epidemic and not as a civil rights issue.

7. An end to violence within households, especially the sexual abuse of children, while reinforcing the importance and autonomy of healthy families.

8. An end to prostitution, the demand for prostitution and sex trafficking.

9. The reasonable appropriation of government monies and the fiscal responsibility of balanced budgets.

10. An end to drug and substance abuse.

11. The elimination of gambling in all its forms.

PORNOGRAPHY

12. The consistent strict enforcement of laws regulating the use and distribution of pornography, and raising public awareness about the harm of pornography to men, women, children and society.

13. The entertainment industry become a more positive moral influence on society.

EDUCATION

14. The declining quality of education, the deterioration of parental rights and authority, the increasing emphasis on Godless philosophies, and, in particular, the unbalanced presentation of America's founding, of evolution and of sex education.

NATIONAL SOVEREIGNTY

15. The loss of national sovereignty to international organizations and other foreign powers through judicial and administrative decisions.

16. The lack of border security to protect America from terrorists and all illegal immigration.

17. Judges who exceed their authority to interpret law by intruding on the authority of the legislative and executive branches of government.

18. The security of our nation and the increasing pressure to weaken the country's defenses.

EDUCATION

14. The quality of education restored to a level of excellence in academic achievement without governmental mandates that are detrimental to parental rights.

NATIONAL SOVEREIGNTY

15. A reaffirmation of the independence of the United States and protection of the right to self-government without legal recognition of any foreign authority as to the interpretation of the U.S. Constitution.

16. Our nation develop and maintain strong border controls to protect us from foreign terrorists and the flow of illegal immigration. We welcome legal immigrants, especially those fleeing government persecution because of their religious beliefs or other basic human rights.

17. The nomination and confirmation of highly qualified individuals as judges who have demonstrated a commitment to the limited role of the judicial branch, the rule of law and respect for the text of the state and U.S. Constitutions.

18. The United States deploy the strongest national defense system in the world as a deterrent to foreign aggression.

OUR CORE ISSUES

Concerned Women for America confronts many issues facing American citizens. We divide these into six different categories and have accordingly divided our web content here for you.

Family

CWA believes that marriage consists of one man and one woman. We seek to protect and support the Biblical design of marriage and the gift of children.

Sanctity of Human Life

CWA supports the protection of all innocent human life from conception until natural death. This includes the consequences resulting from abortion.

Education

CWA supports reform of public education by returning authority to parents.

Pornography

CWA endeavors to fight all pornography and obscenity.

Religious Liberty

CWA supports the God-given rights of individuals in the United States and other nations to pray, worship and express their beliefs without fear of discrimination or persecution.

National Sovereignty

CWA believes that neither the United Nations nor any other international organization should have authority over the United States in any area. We also believe the United States has the right and duty to protect and secure our national borders.
