Impacting Our Culture

Is it possible to fulfill the mission of the church and influence culture and public policy?

The highest levels of Virginia state government are aggressively instituting policies that contradict our values. Children go from an hour of Sunday School to a week of public indoctrination that calls homosexuality normal and the Bible outdated.

We are praying for an awakening of the church in Virginia to our responsibility in influencing culture and public policy.

CWA believes Christian leaders can make a great impact in our state without compromising the mission of the church.

***This is a conference
you will not want to miss!***

*Concerned Women for America
is the nation's largest public policy
women's organization with a rich 29 year
history of helping our members across the
country bring Biblical principles into all
levels of public policy.*
