## **A Vote for Women's Safety**

Concerned Women for America (CWA) of Virginia joined Attorney General Ken Cuccinelli, Virginia Society for Human Life, Family Foundation and others to express gratitude to the General Assembly, Delegate Kathy Byron (R-22<sup>nd</sup>, Lynchburg) and Senator Ryan McDougle (R-4<sup>th</sup>, Hanover) for passing SB924, Abortion Clinic Regulation required of Board of Health.

This important safety and health protection legislation is for women all across our state. "The twenty plus year debate over health and safety regulations of abortion centers is over in Virginia. This is a modest step in the right direction. It is simple mercy and proper medical practice, but shocking crimes committed in Philadelphia drive home the serious need," stated Janet Robey, Virginia State Director for CWA.

The much needed regulations will provide greater protection from the dangers of unregulated and under investigated free standing abortion practitioners throughout Virginia.

*Concerned Women for America is the nation's largest public policy women's organization.*
