

State Director Valente Raising Money for Sado-Masochist Group?

FOR IMMEDIATE RELEASE:

February 7, 2003

FROM: Lord Suttle/Tori Browning, National Coalition for Sexual Freedom

Now's the chance to fight the Right and help the National Coalition for Sexual Freedom (NCSF) during My Vicious Valentine, VI in Chicagoland Area Feb 14-16. VV-VI, Caesar's Revenge, is currently under attack for the second year by the Illinois Chapter of Concerned Women for America. The annual witch hunt of events by the CWA is designed to gain the CWA new members and increase their donations. This year the hosts of My Vicious Valentine thought that more than just the parochial CWA should gain members and funds from these ridiculous, self serving attacks.

Please join us in a Caesar's Revenge, a pledge drive where all funds will donated to the National Coalition for Sexual Freedom, also VV-VI's press liaison. Every time a press release is posted to the CWA website about the event we ask you donate \$2.00; each time the CWA mentions Vicious Valentine or MJ Productions \$1.00, should a newspaper or radio show discuss the event \$3, if Ms. Kathy Valente, CWA of Illinois' State Director. (www.cwfa.org.) be quoted using the word "fisting" in a press release or newspaper article \$5 and should Ms. Valente, utter the term "Fisting" on National or Cable Television the suggested donation is \$10. You may pledge any amount.

A running tally will be kept on the leatherquest website under Caesar's Revenge as well as at the event still at an officially undisclosed location. If you are not attending the event but wish to pledge you may send your check directly to the NCSF and put Caesar's Revenge in the memo portion of the check.

We applaud the opportunity for the Religious Right and Leather Folk to come together to help a vital organization, such as NCSF, protect all of our sexual freedoms.

God Bless America

Concerned Women for America of Illinois
