

# she's somebody's daughter *launching* A NATIONAL INITIATIVE

**67% of young men and 49% of young women say viewing pornography is an acceptable way to express one's sexuality. In reality, the women sexualized in marketing, pornography and sex trafficking are real people . . . in fact, they are somebody's daughter.**

**She's Somebody's Daughter** is a movement initiated by concerned parents and groups who are committed to create national dialog about the truth of pornography, and its role in driving the demand for sex-trafficking and violence against women and children.
