North Dakota Choose Life Condemns Statement by Prominent Abortion Supporter

Bismarck, ND—North Dakota Choose Life released a statement today condemning the comments made by prominent abortion supporter Richard Dawkins.

Dawkins wrote on Twitter that choosing not to abort a child with Down Syndrome would be "immoral."

"We are horrified and disgusted by the comments that Richard Dawkins made about unborn children with Down Syndrome," said Janne Myrdal, chairwoman of ND Choose Life.

"We value and cherish every child—regardless of his or her medical condition, and strongly condemn these repulsive remarks," she added. "Our legislators passed the nation's first law to protect unborn children with Down's Syndrome, and that is the North Dakota way that out-of-state activists want to destroy," continued Myrdal.

"The abortion industry is backed by radical activists like Dawkins, and we must do everything we can to pass Measure 1 this November so out-of state elites can't force North Dakotans to accept abortion on demand," she concluded.

ND Choose Life is a coalition of pro-life, pro-family, women's and religious organizations that include the North Dakota Catholic Conference, North Dakota Family Alliance, North Dakota Life League, Love Them Both, North Dakota Right to Life and the North Dakota chapter of Concerned Women for America LAC, among others.
