Updated: June 25, 2015

Bill #	Summary	Position	Status/Action
AB 775	The “Reproductive FACT Act” is sponsored by NARAL Pro-Choice California. AB 775 requires licensed pregnancy centers with a medical provider on staff to provide notices about free or low-cost access to abortion in multiple languages. Other centers will be forced to post large notices in multiple languages on their site stating that they are not medical facilities. Non-licensed CPC’s must also include such notices in any advertising materials and on their websites in a “clear and conspicuous” manner (larger or bolder font, color, etc. relative to other text). Noncompliance will result in \$500-\$1000 fines.	Oppose	Passed Assembly Passed Senate Health Comm. To Senate floor <i>Ask your state senator to oppose AB 775</i>
AB 1177	Transfer Agreements for Abortion Clinics (Gomez, Burke and Low) – Removes requirement that abortion clinics must have transfer agreements with local hospitals in order to obtain a license. Primary care clinics routinely obtain transfer agreements for patient safety prior to opening; current regulations allow for some clinics to apply for waivers – but not abortion clinics. This bill, supported by CA’s pro-abortion groups, will allow abortion clinics to be opened without transfer agreements with a nearby hospital, threatening the safety of women and preborn babies.	Oppose	Passed Assembly To Senate Referred to Senate Health Committee
SB 128	Physician-Assisted Suicide (Lois Wolk, D-Vacaville and Bill Monning, D-Santa Cruz) – Legalizes physician-assisted suicide, allowing doctors to prescribe lethal doses of medication to terminally ill patients while protecting physicians from criminal and civil liability. Coalition information at noassistedsuicideca.org. Referred to Health and Judiciary Comms.	Oppose	Passed Senate To Assembly Assembly Health Comm. Hearing scheduled for June 23 has been postponed <i>Ask the committee members to oppose</i>
