Taxpayers should not be providing half a billion dollars to Planned Parenthood, America's foremost abortionist organization — especially now that more than once Planned Parenthood senior employees have been caught in videos blithely discussing the organization's deliberate harvesting of babies' body parts during abortions. And, more videos are expected to continue surfacing.

This is not only gruesome and barbaric; it is illegal.

We strongly urge you to use your influence in Congress to press for a total and immediate cutoff of taxpayer funding for Planned Parenthood.
