

CONCERNED
WOMEN *for* AMERICA
LEGISLATIVE ACTION COMMITTEE

February 4, 2021

The Honorable
United States Senate
Washington, D.C. 20510

Dear Senator,

The Sanders' Budget Resolution, S.Con.Res.5, is a shell game for addressing coronavirus relief. With the party-line vote on the motion to proceed, Senate Democrats have thrown the institution into a partisan process to ram through a budgetary framework for massive federal spending and the prospect of extreme policy objectives gained by subverting the legislative filibuster. Such gamesmanship violates long-standing precedent and the bipartisan approach previously taken on the critical topic of the coronavirus pandemic. It demonstrates that any suggestion of unifying the country is mere lip service. What a sad start to the 117th Congress under the leadership of now Majority Leader Chuck Schumer (D-New York).

As such, hundreds of amendments have been filed for consideration. Concerned Women for America Legislative Action Committee (CWALAC) will take votes on amendments seriously as an indication of your position on critical issues. This letter is to alert you that we will consider votes on certain of these amendments for our annual scorecard in order to inform the hundreds of thousands of Concerned Women for America members and supporters across the country, including in your state, of your position.

Specifically, CWALAC reserves the right to include on our scorecard any amendment votes in the following categories:

- Any vote in favor of protecting the right to life of unborn babies or survivors of abortion.
- Any vote in favor of prohibiting U.S. taxpayer dollars from being used for providing or promoting abortion, either domestically or internationally.
- Any vote in favor of protecting the free speech rights of faith-based groups on college campuses.
- Any vote in favor of upholding freedom of religious exercise during the pandemic.
- Any vote in favor of prohibiting institutions from allowing biological male athletes to compete against female athletes in sports designated for women and girls.
- Any vote in favor of ensuring the United States maintains our U.S. embassy in Jerusalem.
- Any vote in favor of protecting women and children from sexual exploitation by illegal aliens and prosecuting for such criminal behavior.
- Any vote in favor of supporting parental choice in education and science-based funding for reopening schools.

- Any vote in favor of strengthening election integrity.
- Any vote in favor of maintaining the current composition of the U.S. Supreme Court.

We urge the U.S. Senate to work together to uphold the values that make America strong and the constitutional freedoms which allow our citizens to flourish.

Sincerely,

Penny Young Nance
CEO and President
