

CONCERNED
WOMEN *for* AMERICA
LEGISLATIVE ACTION COMMITTEE

March 3, 2021

The Honorable
U.S. House of Representatives
Washington, D.C. 20515

Dear Representative,

On behalf of the hundreds of thousands of supporters of Concerned Women for America Legislative Action Committee (CWALAC) around the country, I write to urge you to oppose H.R.1, the so-called "For the People Act of 2021." Conservative women strongly oppose this legislation as a gross encroachment on states' rights by the federal government.

At a time when the country is in desperate need of confidence in our elections, this bill will completely shatter American's confidence. The bill oversteps constitutional limits by seeking to curtail the states' ability to enact their preferred registration and voting procedures.

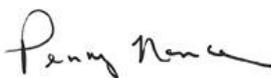

Many Americans are deeply uncomfortable with the hasty, last-minute changes made in the last election by non-legislative entities as a result of the COVID-19 pandemic. Many states are already undertaking efforts to prevent such unconstitutional actions in the future. Yet this bill ignores the concerns of millions of Americans and seeks to force states to conform to the Democrat's preferred methodology in clear violation of the federalism principles of our founding.

Millions are concerned with foreign interference in the election with online and other forms of electronic voting mechanisms. Yet H.R. 1 forces states to implement online, automatic, and same-day voter registration measures, no matter these concerns.

This bill will aggravate the deep divide on our country by changing the current bipartisan makeup of the Federal Election Commission, weaponizing this important entity for political purposes. Not to mention the blatant efforts to violate American's First Amendment rights with vague standards on advocacy efforts and even unconstitutional donor disclosure requirements for organizations like ours.

These are but a few of the concerns with this sinister legislation that will have an enormous impact on the women I represent and their families. We, therefore, ask you to stand in strong opposition to this attack on our liberties and respectfully ask you to speak out on behalf of the people it seeks to target. CWALAC will score against H.R. 1 on our annual scorecard and will make sure our supporters are aware of your vote.

Sincerely,

Penny Young Nance
CEO and President
